

*Warm water fish found in Rice Lake*

**Small Mouth Bass**

Identification: Vertical bars on side.  
Mouth ends forward of eye line.  
Peak season: July, August and September.

**Large Mouth Bass**

Identification: Prominent lateral line. Jaw line behind eye line.

**Yellow Pickerel (Walleye)**

Identification: Two prominent dorsal fins, bright yellow with black vertical bars.  
Peak season: Spring spawning run.

**Maskinonge or Muskellunge**

Identification: No scales on lower half of gill plate. Vertical bars and no yellow bean-shaped horizontal marks.

**Blue Gill, Crappie, Rock Bass, Sunfish and Other Panfish**

Members of the sunfish family are grouped as Panfish. Plentiful, easy to catch and good eating make them ideal quarry for young children.

**Catfishes**

Identification: Single dorsal fin, wide toothless mouth with barbels or whiskers.  
Peak period: From ice out to late fall.

*Come for the great fishing, stay for the warm hospitality!*

It's often said that Rice Lake has more fish per acre than any other lake in Ontario. For over 150 years, Rice Lake, Ontario has been a prime destination for people who like fishing. Pan Fish, Walleye, Bluegill, Muskie or Bass, we have them here in abundance. The people who fish Rice Lake range from the "professional" to families and kids just having fun. We offer great fishing experiences year-round. Visit our website for licensing and packaging information for export across borders.
